

Comparison

Why Choose Kerio Connect Over Microsoft Exchange?

Better cross-platform collaboration

- Easier to share folders than Exchange.
- Integrated CalDAV/CardDAV server for Apple iCal and Address Book.
- Full-feature support for Safari and Firefox.

Less administration hassle

- Manage a single email domain across multiple servers via distributed domain.
- Complete Web-Based administration console with highly intuitive settings.
- Install Kerio Connect in minutes.
- Greater stability and better uptime.
- Lower IT requirements.

More cost-effective

- Get five products in one: collaboration server, mobile email, email security, email compliance, and server backup.
- Install Kerio Connect on a workstation and save on the operating system cost.
- Active Directory not required.
- Lower total cost of ownership.
- Scale as storage and user count grows. One version for all sizes.

More Than Just a Mail Server

Get Five in One

-  Cross-platform collaboration
-  Wireless mobile synchronization
-  Robust email security
-  Email archiving
-  Automated backup

Testimonials

"The nice thing about Kerio Connect is that with all the protocols it can speak, it can handle email, calendaring, and resource scheduling for your whole company, no matter what platform or device an employee needs or wants to use. And, it does so without the headache, nonsensical limitations, and high-maintenance needs of Exchange."

— Kevin Anderson
President and CEO,
Computer Stores Northwest Inc.

Reviews

"Excellent. Kerio Connect is the only vendor to offer a complete cross-platform solution, supporting multiple protocols, working with CalDAV and iPhone."

Norbert Graf
Linux Magazine

"Kerio Connect offers advanced anti-spam and anti-virus features, comprehensive connectivity, and strong mobile email support."

Jürgen Heyer
Internet Magazine
